

For Immediate Release

August 2, 2015

BRECOflex CO., L.L.C. Give New Meaning to the Word Drive

Eatontown, NJ - BRECOflex CO., L.L.C., the world leader in the polyurethane timing belt industry recently had the opportunity to live life in the fast lane. On August 2, 2015, the BRECOflex CO., L.L.C. logo was featured on the right rear fender of Kurt Busch's Stewart-Haas Racing Chevy at Pocono Raceway, part of the NASCAR Sprint Cup Series. The logo appeared courtesy of a partnership between BRECOflex CO., L.L.C. and Haas Automation, a primary sponsor of Kurt Busch's racecar.

Although Busch didn't win this time, it was still a thrill to see the BRECOflex name racing around the track in a car driven by one of today's greatest drivers.

Kurt Busch gives BRECOflex the thumbs up.

BRECOflex CO., L.L.C specializes in custom timing belts, pulleys and accessories used in power transmission, linear drive and conveying applications. They feature the fastest turn-around time for custom pulleys in the industry and free engineering support.
