**Press Release**

**BRECOflex Co., L.L.C. – CONTRIBUTIONS TO THE ENVIRONMENT, TO THE CLIMATE AND OUR LIVING CONDITIONS.**

**“BRECOgreen” – TIMING BELTS MADE OF RENEWABLE RAW MATERIALS.**

**BRECO / BRECOflex Co., L.L.C., the market leader in the PU-timing belt industry is the first belting manufacturer world wide to offer high performing timing belts made of up to 37% renewable materials. The load capacity and service life matches conventional belts made from oil based thermoplastic polyurethane. The performance reliability of “BRECOgreen” timing belts is guaranteed, and the belt parameters equal our high performance standard products.**

**BRECO / BRECOflex Co., L.L.C. will continue to invest in innovative technology to preserve and improve the environment, the climate and our overall living conditions.**
